Call For Papers

Workshop on Networked Data Management and Analysis (NDMA)

June 2014, Harbin, China
Co-located with WASA 2014

With the recent and rapid advances of networking technology, various types of networks are generating massive data. The NDMA workshop aims to bring together researchers and practitioners working on networked data management and analysis. NDMA seeks papers that present novel theoretical and practical ideas as well as work in-progress, which will lead to the development of techniques for networked data management and analysis.

Submitted papers should be original, unpublished work and not currently under review for any other conference or journal. Papers not following these guidelines will be rejected.

Topics of interest include (but are not limited to):

Theoretical foundations of networked data management and analysis
System design, implementation and evaluation
Data management techniques
Query processing and optimization
Data storage, indexing and caching
Protocol design
Privacy and security
Semantic web data management
Big data analytics
Knowledge discovery, data mining

Instructions for Submission:

o EasyChair Paper submission link for NDMA is:
https://www.easychair.org/conferences/?conf=wasa2014

o Authors are required to submit their papers in the Springer LNCS Format with at least 10 point font and no more than 5 pages. All submissions should be in the PDF format. Accepted papers will be published in the Springer-LNCS series.

o LNCS Proceeding template in Microsoft Word or Latex is:
http://www.springer.com/computer/lncs?SGWID=0-164-6-793341-0

o Extended versions of most papers from the conference will be published in special issues of **Journal of Combinatorial Optimization (SCI), International Journal of Distributed Sensor Networks (SCI), EURASIP Journal on Wireless Communications and Networking (SCI), and Computational Social Networks,** respectively.

Important Dates:

Submission Deadline:
Notification of Acceptance:
Camera-ready Submission: April 5th, 2014
Conference Date: June 23-25th, 2014
